# Walkway Covers

Rusco Custom Canopies has the right solutions for:

- School bus stop covers and canopies
- School sidewalk cover or canopy
- Bus loop canopy
- Manufacturing plant covered building connections and canopies
- Parking lot sidewalk covers and canopies
- Walkway span covers
- Access ramp canopy or cover

Featuring the [SUPERDECK Extruded System](#) with [TrueFit Advantages](#).

See [Architectural Specifications](#) for details.

Aluminum walkway covers are functional, suitable for all environments, and do not have to be expensive. Our systems are used in schools, churches, office buildings and wherever pedestrian shelter is needed. Rusco features a system of extruded or roll formed aluminum roof supported by extruded aluminum beams and posts. This results in a walkway canopy which can be curved or straight and have more distance between posts.

Aesthetics combined with Function at an Affordable cost.
